on your waste service bill.

Where you can leave your separate waste free of charge and obtain a discount.

Thanks in advance for your precious collaboration.

Another important aspect: pay-as-you-throw has been introduced in Ferrara.

The waste collection methods vary according to the district:
- roadside containers: the undifferentiated waste bins have a cap closure and can only be opened using the Carta Smeraldo (an “Emerald card” supplied by Hera to every user for the use of environmental services);
- door to door: with undifferentiated waste containers with identification plate and user ID code.

La raccolta differenziata è un sistema che permette di separare diversi tipi di rifiuti durante la raccolta domiciliare. 

**INDIVIDUALIZZAZIONE**

Il sistema di raccolta differenziata nella città di Ferrara ha come obiettivo di promuovere l'educazione ambientale e di incentivare la raccolta differenziata di rifiuti.

**ORGANIC SCRAP**

Certi tipi di rifiuti, come i residui alimentari e i materiali per giardino, possono essere raccolti in sacchetti di plastica o in bidoni specifici. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC GLASS**

Tutti i tipi di vetro, come le bottiglie, possono essere raccolti in sacchetti o bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC METAL**

Tutti i tipi di acciaio e alluminio, come le cassette o le tazze in acciaio, possono essere raccolti in sacchetti o bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC CARDBOARD**

Tutti i tipi di carta, come i libri o i fogli, possono essere raccolti in sacchetti di plastica o in bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC PAPER**

Tutti i tipi di carta, come i giornali o le buste, possono essere raccolti in sacchetti di plastica o in bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC PLASTIC**

Tutti i tipi di plastica, come le bottiglie o le tazze di plastica, possono essere raccolti in sacchetti di plastica o in bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC ORGANIC WASTE**

Tutti i tipi di rifiuti organici, come i residui alimentari o i materiali per giardino, possono essere raccolti in sacchetti di plastica o in bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC TOXIC MATERIALS**

Tutti i tipi di materiali tossici, come le pile o i medicinali, devono essere raccolti in sacchetti o bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC HAZARDOUS MATERIALS**

Tutti i tipi di materiali pericolosi, come i liquidi per pulizia o i medicinali, devono essere raccolti in sacchetti o bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC VINTAGE MATERIALS**

Tutti i tipi di materiali d’epoca, come i libri antichi o le tessuti antichi, devono essere raccolti in sacchetti o bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC ELECTRONICS & APPLIANCES**

Tutti i tipi di elettronica e apparecchiature, come le telefoni o i computer, devono essere raccolti in sacchetti o bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC LIGHT BULBS**

Tutti i tipi di lampadine, come le lampadine a filamento o le lampadine a LED, devono essere raccolti in sacchetti o bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC INK CARTRIDGES**

Tutti i tipi di cartucce d’inchiostro, come le cartucce laser o le cartucce di stampante, devono essere raccolti in sacchetti o bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC BATTERIES**

Tutti i tipi di batterie, come le pile per telecomandi o le batterie per giocattoli, devono essere raccolti in sacchetti o bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC MEDICINE BOTTLES**

Tutti i tipi di bottiglie di farmaci, come le bottiglie di farmaci o le vials, devono essere raccolti in sacchetti o bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**DOMESTIC WASTE COLLECTION CENTERS**

Sono aree a disposizione di tutti i cittadini in cui sono raccolte diverse tipologie di rifiuti differenziati.

**PAPER & CARDBOARD**

Tutti i tipi di carta, come i giornali o le buste, possono essere raccolti in sacchetti di plastica o in bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**PLASTIC & METAL**

Tutti i tipi di plastica e acciaio, come le bottiglie o le cassette in acciaio, possono essere raccolti in sacchetti di plastica o in bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**GLASS & WOOD**

Tutti i tipi di vetro e legno, come le bottiglie o i mobili in legno, possono essere raccolti in sacchetti di plastica o in bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**ORGANIC & METAL**

Tutti i tipi di rifiuti organici e acciaio, come i residui alimentari o le cassette in acciaio, possono essere raccolti in sacchetti di plastica o in bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**ORGANIC & GLASS**

Tutti i tipi di rifiuti organici e vetro, come i residui alimentari o le bottiglie, possono essere raccolti in sacchetti di plastica o in bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**ORGANIC & METAL & GLASS**

Tutti i tipi di rifiuti organici, acciaio e vetro, come i residui alimentari, le cassette in acciaio o le bottiglie, possono essere raccolti in sacchetti di plastica o in bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**ORGANIC & METAL & GLASS & WOOD**

Tutti i tipi di rifiuti organici, acciaio, vetro e legno, come i residui alimentari, le cassette in acciaio o le bottiglie, possono essere raccolti in sacchetti di plastica o in bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.

**ORGANIC & METAL & GLASS & WOOD & PLASTIC & CARDBOARD**

Tutti i tipi di rifiuti organici, acciaio, vetro, legno, plastica, carta e cartone, come i residui alimentari, le cassette in acciaio, le bottiglie, le cassette in legno, le bottiglie di plastica e i giornali, possono essere raccolti in sacchetti di plastica o in bidoni di plastica. I sacchetti di plastica o i bidoni devono essere ben chiusi e portati al punto di raccolta appropriato.
